 - ONE SENTENCE: “I’m interested in this topic because...”

What can we agree on about homelessness in Corona?

- Homelessness is a challenge that we want to work to address in this city.
- There is good work already happening to address homelessness in a variety of organizations and places in the city.
- It will take a coordinated effort among multiple sectors of business, government and non-profit agencies and organizations to address homelessness in the city.
- What else?

What is the
outcome that
we are working
toward?

We will collectively commit to:

Determine the scope of the challenge,
recognizing that we are at a crisis point

Look for and develop solutions around
housing, education, services, and
prevention

Look for ways to impact/change policies
to better address the challenge of
homelessness

Seek to solve problems locally when
possible, recognizing that good work is
already underway and that we can align,
coordinate and leverage current work

What can we
agree on in
working
together?

- We are better together than we are in individual “siloed” efforts
- We need to recognize and build on strengths that exist
- Leave individual agendas at the front door
- Cooperation, not competition, is essential in creating solutions
- What else?
